
Chapter 23. Document Production

Visual Paradigm offers powerful features for you to prepare documentation and reports ranging from one click report generation to fully customizable documentation capabilities.

For those who wish to generate report in one click:

- Review the Report Publisher Section

For those who wish to compose a report with a bunch of modeling artifacts such as diagrams, tables from Visual Paradigm by drag & drop those model components in between the paragraphs or textual description of your report:

- Study the Doc Composer for details

For those who wish flexibly fill-in useful data, diagrams, model elements information or some fine details from Visual Paradigm into somewhere of your corporate report which scattered in various different locations such as tables, descriptions and etc.

- Learn the Fill-in Doc Mode of the Doc Composer
