Exporting BPMN 2.0 from Visual Paradigm

Interoperability is the ability to exchange information between two systems and to use the information that has been exchanged. Visual Paradigm supports interoperability with <u>BPMN 2.0</u> XML. You can export project data, edit it externally with other softwares that accepts BPMN 2.0 XML. In this chapter, you will see how to export BPMN file.

Exporting project to BPMN

- 1. Select **Project > Export > BPMN 2.0...** from the toolbar. This displays the **Export BPMN** window.
- 2. Specify the file path of the BPMN file.
- 3. Click **OK** button to start exporting. Upon finishing, you can visit the output destination specified to obtain the BPMN.

An overview of Export BPMN window
