
Project Plan

Project Plan is one of the project management deliverable you can create with our [project management lifecycle software](#).

The project plan document is a combination of individual planning document obtained by performing the planning activities in this phase. Make sure the project plan document is approved by the approving authority in order to continue to the next phase.

This article shows you how to develop a Project Plan.

Activity 1: Review Project Management Repository

You are about completing the Planning activities. Before you continue, make sure all the documents required to start the execution phase are available and up-to-date. Check the Project Management Repository and include any missing documents.
