
How to identify scrum project stakeholders

In Scrum Process Canvas, the [scrum tool](#), perform the steps below to identify and list the stakeholders of your scrum project. You may try the steps interactively by visiting the [interactive product tour](#).

1. In the Scrum Process Canvas, click on the work item **Stakeholders** to open it.

2. To perform the step, click on the action artifact **Stakeholders**.

3. This opens the Stakeholders table. You are required to list and describe the stakeholders here. For each stakeholder, enter his/her name, role, responsibilities, contact details and any additional information about this stakeholder.
4. Repeatedly add and describe the other stakeholders. Press **Enter** to create a new row.

Name	Role	Responsibilities	Contact	Notes
William Young	Sponsor	▼ Provide funding to cover progress payments.	771-18-2842	N/A
Chris Daniels	Customer	▼ Monitor the progress of the project to ensure the benefits will be realized.	687-01-1874	N/A
Martin Pagan	User	▼ Provide feedback related to buyer experiences	035-64-1861	Not available in September
John Myers	User	▼ Provide feedback related to buyer experiences	575-14-2974	N/A
Dorene Swiney	User	▼ Provide feedback related to buyer experiences	505-23-1769	N/A
Virginia Rath	User	▼ Approve key project deliverables	829-57-9848	N/A

5. Go back to the work item page via the breadcrumb.
6. When you are done, click on **Commit** at the bottom right corner, and then select **Complete** from the popup menu.
