
How to read a scrum board

In Scrum Process Canvas, the [scrum tool](#), perform the steps below to open the scrum board. You may try the steps interactively by visiting the [interactive product tour](#).

1. In the Scrum Process Canvas, click on **Scrum Board** to open it.

Scrum Board

2. This opens the the Scrum Board. A scrum board gives you an overview of all sprint tasks. The first column of the scrum board lists the User Stories in the sprint. Tasks are partitioned into multiple columns of statuses - in progress, completed and closed, helping you identify the status of sprint activities at a glance.
