How to re-order wireframes in storyboard

You can always reorder the wireframes added to a storyboard by performing these steps:

- 1. Select **Modeling > Wireframe Storyboard** from the toolbar.
- 2. Double click on the desired storyboard to open it.
- 3. Select the wireframe(s) to reorder. You can perform multiple selection by first pressing **Ctrl** on a wireframe, and then select the other wireframes one by one.

4. Drag your selection to the target place.
