## How to edit project properties in Visual Paradigm

In [Visual Paradigm](#), you can specify the project name, main author of project, your company's name and a description of your project (in rich text format). With **Project Properties** window, you can edit and review your project properties. For your convenience, when you create another new project, all the properties of previous project are set as default, except project name. However, you can modify those default properties in accordance with your preference.

1. Open **Project Properties** window by selecting **Project > Properties...** from the toolbar.
2. Enter project name, author, company and project description. Click **OK** button to confirm and close the dialog box. Note that you can enter formatted text for project description.
